Lilly A MEDICINE COMPANY

2025 ACG Clinical Guideline Update

Bowel urgency has been developed and **validated as a substantial PRO** in patients with UC and has been reported to be one of the most **bothersome** and **disruptive** symptoms, distinct from stool frequency and bleeding[1]

of patients with ulcerative colitis have **bowel urgency**[2]

ACG=American College of Gastroenterology; PRO=Patient-Reported Outcome; UC=Ulcerative Colitis.
